

FiberFlies PixelWhips

Quick Start Guide

On/Off & Color Modes:

PixelWhip uses a single button for all operations! Long-press for 1 second to turn on (this avoids accidental power-on in your backpack etc). Short-click to change color modes. Long press for 2 seconds to power off - PixelWhip remembers the last color you were on, and resumes the next time you turn on!

Color Modes

- | | |
|---------------------------|-----------------------|
| 1. Blue | 10. Watermelon Wipe |
| 2. Red | 11. White/Blue/ Wipe |

| 7. Yellow | 16. Cyan/Magneta Wipe |
| 8. Pastel White | 17. Blue/Magneta Wipe |
| 9. Rainbow Strobe | 18. Rainbow Wipe |
| | 19. Solid Rainbow |

Power

PixelWhip uses a single 18650 protected circuit Li-Ion battery for power (battery & charger included).

CAUTION: non protected 18650 could damage your PixelWhip. If you buy extra batteries from another source, make sure they have a protected-circuit.

To power PixelWhip, insert battery with positive (+) end towards fiberhead and screw cap/handle together. When battery run out, PixelWhip will blink red 3 times to indicate low power, then power off.

NOTE: When you 1st receive your PixelWhip, battery may not be fully charged. To change battery, plug charger into power source and insert battery. Charger light will glow green once fully charged. To reach max capacity, battery may need to charge for 8hrs or more. Battery can continue to trickle charge even after green light.

Optical fiber care:

Store and transport PixelWhip's fiberhead in bag (included) to protect from unintentional tangling and damage.

To clean and keep the fibers untangled and smoothly flowing, use small amount of silicone lubricant on a cloth; starting at the fiberhead, gently wiping down the length of fibers.

If radial bearing stops turning smoothly, apply a tiny amount of WD40 directly into the bearing's inner race.

IMPORTANT: Taking care not to get WD40 on fibers, Unscrew the fiber head, so you can apply WD40 from the back side. Turn the fibers in the bearing to work the WD40 in.

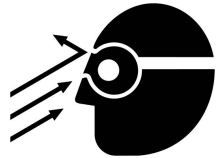

WARNING
USE AT YOUR OWN RISK
Intended for ages 14 and up.
PixelWhip is not a children's
product.

Do not modify this product.
Do not use this product for purposes
for which it is not intended.

TAKE PRECAUTIONS:

! Fibers can hurt when whipped around at high speed !
Maintain a safe distance around you
when using in the presence of others.

Risk of eye injury
Wear proper eye protection

Always repair or replace damaged or worn parts before further use.

To prevent voiding the warranty and/or compromising safety, performance, durability and function, we recommend you **ONLY** use PixelWhip as is. Modify at your own risk; it will void the warranty.

Stay alert and use common sense. Do not use PixelWhip when tired, distracted, or in the presence of fragile or breakable objects.

Do not use PixelWhip while impaired. Consult prescription labels to determine if your judgement or reflexes may be impaired by taking a particular drug; if so do not use PixelWhip.

FiberFlies can hurt others if misused. Please always maintain control over your PixelWhip: This includes educating your friends on how to use them safely; especially in crowds and when the energy is high.
